“ Deepest sympathy to Gene's family from SHS classmate Michelle Broussard Honick. You're in my thoughts and prayers.

“ Gene was such a smart man who had so many ideas in his head! The one that comes to mind especially is when he decided he wanted to raise earthworms. He ordered thousands of worms and first and put them in aluminum garbage cans! It was summer, so they got extremely hot and most of them died! Fortunately Gene had a good sense of humor and we had a good laugh about it!
Another memory was when he and I used to do the Big Fig Newton dance and argue about who's was better!
We were young when we were married, so we had such fun sometimes! Although we were divorced after 8 years, I still cherish the fun days we had together, and with our only child, David
